Genoa, September 28.

THREE English Ships arrived here on the 26th Instant, having on board some part of the Regiment of Wirtemberg. Sig. Aldobrandini is arrived here from Vienna on his Way to the Court of Madrid, where he is to reside in Quality of Nuncio from the Pope: He designs to embark on board a French Ship bound to Barcelona. All Commerce is forbid with Leghorne and some other neighbouring Places, and no Persons are permitted to enter this State from those Parts before they have performed Quarantain. Several Masters of Barks, although belonging to this State, have not been suffered to perform Quarantain in our Ports, because of their coming from Marseilles.

Hambourg, Oct. 8. Advices from Riga say the Czar was arrived there, intending to Review his Troops on that Side. The King of Denmark and the Prince Royal are intended to Gottorp: They design to set out this Morning for Bronsbüttel to stay there two Days, and return afterwards to Copenhagen by the Way of Fermeren and of Laland. The Count de Fyrtach, the Emperour's Minister, is upon his Departure for the Court of Sweden. Advices from Hanover say, that M. de Bassewitz, and M. Strick, were gone from thence, after having obtained an Answer to the Memorial they had presented in Favour of the Duke of Holstein their Matter: They are gone to Berlin about the same Affair. The Contents of that Answer are not made Publick, but 'tis said that the Circle of the Lower Saxony has wrote to the King of Denmark concerning the Restitution of that Duke's Estates. It is reported that the Congress at Brunswick will be opened about the Beginning of next Month.

Dusseldorp, Oct. 8. The Prussian Officers engaging by Force, and without Distinction, the Inhabitants of the Dutchy of Cleves and other Places to bear Arms, have occasioned of late some Tumults; particularly on the 28th of the last Month, when some Thousands of Peasants got together, upon Notice that a Lieutenant-Colonel had shut up in the little City of Schwelm several Persons who had been forced into the Service: These Peasants entered the Place with great Violence, broke open all the Doors, threatening the Officer to cut him to Pieces if he did not instantly let his Prisoners go: The Officer being constrained to comply with their Demand, the Prisoners were all set at Liberty. Letters from Schwetzingen give an Account of the Elector's being indisposed, but 'tis hoped he is in no Danger. Count Cautitz, the Emperour's Minister, who has been some time here, will set out from hence in a few Days for some other Court. On the 29th of last Month, M. de Cramer, his Electoral Highness's appointed Envoy to Poland, set out for Heidelberg, to relieve M. de Waldeck, who is at present at the Polish Court, and is expected to return hither soon after the Arrival of M. de Cramer.

Dresden, Oct. 9. On the 5th Instant the Queen of Poland arrived at Leipzig from Carlsbad, and Yesterday her Majesty went to her Residence at Preßsch, after having given Audience to the Count de Witshum, the King's Great Chamberlain, lately arrived here from Warsaw. The Prince Royal came back on the 3d Instant from the Castle of

Wernsdorf, and on the 4th he celebrated his Imperial Majesty's Birth day: Abundance of Nobility and Ladies appeared at Court magnificently dressed on this Occasion, and at Night a French Comedy was acted. Count Watzdorf is come back from Warsaw, from whence we are informed, that through the Peoples Dissatisfaction, 'tis thought General Fleming will desert from the Command of the foreign Troops. The contagious Distemper continuing still in Leopold and the neighbouring Places, occasions some Deliberation on account of admitting the Deputies from those Parts; some Persons being of Opinion it may be proper to oblige them to perform Quarantain. M. de Bassewitz, Privy-Councillour to the Duke of Holstein, is gone through Leipzig, on his Way to Vienna. The King of Prussia, accompanied by the Prince of Anhalt-Deßau, and several Officers of the Troops, have been two or three Days at Hall, and reviewed two Regiments: At the same time his Majesty visited the Orphans House, and appeared well satisfied with the good Administration of the Professor M. Frank, who is Director of it, and had lately the Honour of preaching before his Majesty. The King went afterwards to Deßau.

Frankfort, Oct. 13. On the 11th Instant, the Princess, Spouse of the Hereditary Prince of Hesse Darmstadt, was brought to Bed of a Daughter. The Count de Hanau, and Prince Maximilian of Hesse-Cassel, were not yet set out from Darmstadt. The Prince of Furstenberg, Commissary to the Emperour, arrived here on the 12th Instant, on his Way to Wetzelaar. The Court of the Elector Palatine keeps still at Schwetzingen, and it is not yet certainly declared when the Elector will make his Residence at Mannheim. The Hereditary Prince of Wurtemberg designs to make a Tour to Berlin with the Princess his Spouse. The young Margrave of Baden has sent Abundance of fine Presents to the Princess of Swartzenbourg his betrothed Spouse. The King of Prussia has given Orders for restoring to the Roman Catholics the Convents, Churches and Revenues which were lately sequestered. Advices from Constantinople say the Plague is ceased there.

London, October 17.

Yesterday arrived a Mail from France.

Paris, Oct. 23. We have Advice from Cadix of the 6th Instant, that a Ship which was come into that Port from Lisbon, had brought an Account, that the Evening before she left Lisbon, 15 Spanish Vessels came in there, which had suffered very much by a Storm; a good Number of Troops was on board those Vessels, bound from Corunna for Cadiz. These Advices add, that pursuant to the last Orders from the Court, all the Ships of War and Transports then at Cadiz were getting ready; that a great Quantity of Corn and Forrage was brought thither, and was shipped off as fast as it came; and that Troops arrived daily in that Neighbourhood; as also great Drovers of Cattle. The Count de St. Istevan, one of the King of Spain's Plenipotentiaries for the Congress to be held at Cambray, arrived here on the 14th: His Equipage is gone on for Cambray, whither he will follow in a few Days. The Court has resolved to augment considerably the Pay of the Troops, especially that of the Subaltern Officers: The Tailles for the next Year will likewise be considerably augmented. A new Council of Conscience is established here, consisting of the Cardinal of Rohan as President, the Cardinal de Bissy, the Archbishop of Cambray, the Bishop of Frejus the King's Preceptor, and the Bishop of Clermont. This Council is to meet every

every Wednesday at the Palais Royal, and is to judge of Affairs relating to Religion, and the Nomination to vacant Benefices. The Cardinal de Noailles, who is left out of this Commission on account of his not complying with the Court in relation to the Pope's Constitution, is still in Retreat at the Mount Valerian. The Cardinal of Alsatia is returned to Malines, whence he is to proceed to Rome by the Way of Germany, all the other Passages being stopp'd up on account of the Plague. It is advis'd from Lyons of the 14th Instant, that they were very much alarmed at the Approach of this Distemper, which has spread over a great Part of Provence and the Frontiers of Dauphine. All the Gates of that Town are shut up except two, which are strictly guarded by the Citizens; and an Order of the Magistrates has been published, allowing 8 Days to all Persons who would retire from thence; after which Time, no body will be permitted to go out of that Town without express Leave, and such Citizens as are at their Country Houses, are ordered to return to Town within the same Space of Time, and to provide themselves with all manner of Necessaries. The Parliament at Aix would have retired to Terrascone, but the Inhabitants of that City having refused to receive them without their holding Quarantine, they have been obliged to remain at St. Remy.
